Non-Bleed Ads

Ads that are not intended to bleed must be sized to fit within the non-bleed sizes listed.

Bleed Ads

- Ads that are intended to bleed must be sized to be trimmed to the bleed sizes listed.
- All live matter (text, images not to be trimmed) must be kept within the non-bleed measurements. Any matter that extends past the non-bleed safe area may be trimmed due to folding and bindery variations.
- Any image or background colour intended to bleed must extend a minimum of 1/8" past the trim dimensions on all four sides of the ad. Right- or left-hand positioning is not guaranteed.
- Be aware of common crossover limitations in "double-page-spread" configurations (adjoining pages can shift up to 1/8" in the binding process on certain copies).
